Art Unit: 3635

1. This is a first Office action on the merits for application serial number 10/658917 filed 09/11/03. Claims 1-16 are pending.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 5, 8, 9, 13, 15 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 4,480,652 to Gooch.

Gooch provides a protective cover comprised of a flexible sheet 12 of material which bows in the upward direction when uncoiled. The sheet can be self-coiling or provided with self-coiling ribs. Securing means 16, 20, and hooks 22 are provided for securing ends of the sheet to a boat (vehicle) or a wide variety of other structures. Figure 2e shows the sheet secured to ends of a boat where the length of the sheet is greater than the length of the boat.

4. Claims 3, 4, 6, 7, 10 -12 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3635
